OUR HISTORY

Nika is "the place to be", a platform where local heritage meets Mediterranean life-style. Nika has to be considered as a piece of history of the Country, being one of the first islands that started the concept of tourism in the Maldives, back in 1983.

Nika is the island where "nothing has changed". An everlasting "thing of beauty", that is not subjected to the disruptive impact of the Hospitality Industry that is shaping the Country. Nika represents "the Maldives that used to be", the Idyll in the middle of the Indian Ocean.

Nika is a perfect example of a boutique hotel that breaks the dynamics of big international brands that are reshaping the Maldivian hospitality industry. Nika is a heady mix of Italian lifestyle and Maldivian traditions; a unique platform where heritage and natural beauty meet together.

ACCOMODATIONS
