

### THE RESORT

Mwezi resort reminds of an African village, especially its naturally coloured lime walls take you to another world. The open designed villas are cooled by the daily ocean breeze and everything is eco-friendly and sustainable built. Following this philosophy, the grey water is recycled for gardening and the hot water is heated by solar.

### POOL AND BEACH

The Resort is built directly at the Indian Ocean and has its own sandy beach. In addition, our 360 ° infinity pool is always available for a cooling dip.

### ROOMS

We offer a total of 17 spacious and breezy villas/bungalow, with view of the Indian Ocean or our tropical garden, a large veranda and ceiling fans.

### RESTAURANT

The meals are served on our terrace loft restaurant. All seasonal ingredients are bought from local farmers and fishermen or are taken from our own orchard.
